

Female Reproductive Lab

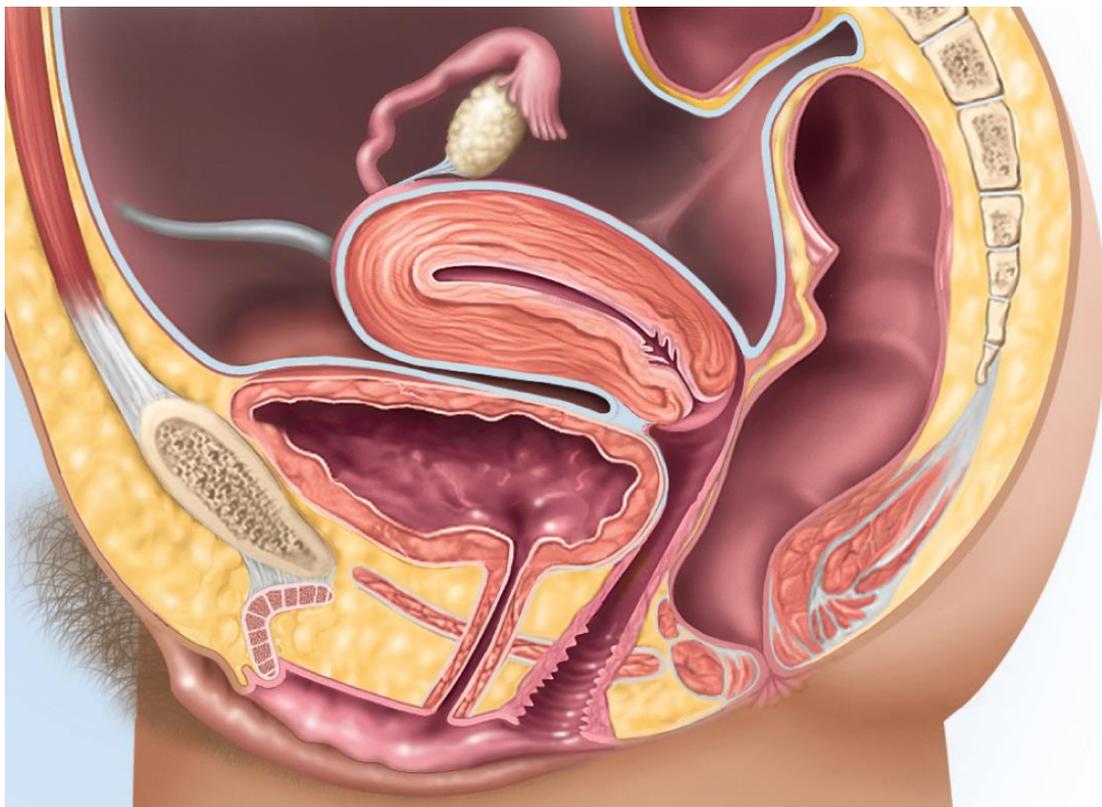

In this lab students will learn to identify structures of the female reproductive anatomy. Use your textbook to identify and label the structures of the female reproductive system listed below.

Watch the video on the Anatomy and Physiology website that is associated with this lab.

Activity One: Female Reproductive Anatomy

Please identify and label the following female reproductive structures listed below. Use your textbook to complete this activity, the female reproductive anatomy can be found on Figure 28.1 (page 1060).

- Ovaries
- Ovarian ligament
- Uterine tubes (also known as Fallopian tubes and oviducts)
 - Fimbriae
- Uterus
 - Cervix
- Vagina
- Vulva
 - Labium majus
 - Labium minus
 - Clitoris
- Urinary bladder
- Urethra

Activity Two: Female Reproductive Anatomy (Model)

Please identify and label the following structures of the female reproductive system (same as above) on the models below. Watch the Reproductive Lab Video (forward to the second half of the video for the female reproductive anatomy) on the Anatomy and Physiology Website to help you complete this activity.

- Ovaries
- Ovarian ligament
- Uterine tubes (also known as Fallopian tubes and oviducts)
 - Fimbriae
- Uterus
 - Cervix
- Vagina
- Vulva
 - Labium majus
 - Labium minus
 - Clitoris
- Urinary bladder
- Urethra
